

SILFLO OFFERS A COMPLETE MATCHED AND CERTIFIED ONE PIECE FITTING RANGE

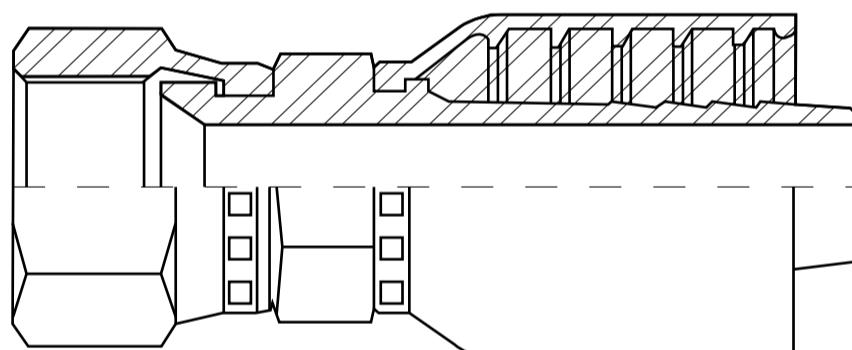

Our premium one-piece fittings are made for high pressure applications in mining, forestry, quarrying, construction, agriculture. Every single element of the SILFLO system is subjected to rigorous pressure and impulse testing by our quality assurance team at our inhouse facility.

We stock the full range of thread types and orientation. Fittings are marked with part numbers and thread type.

K SERIES

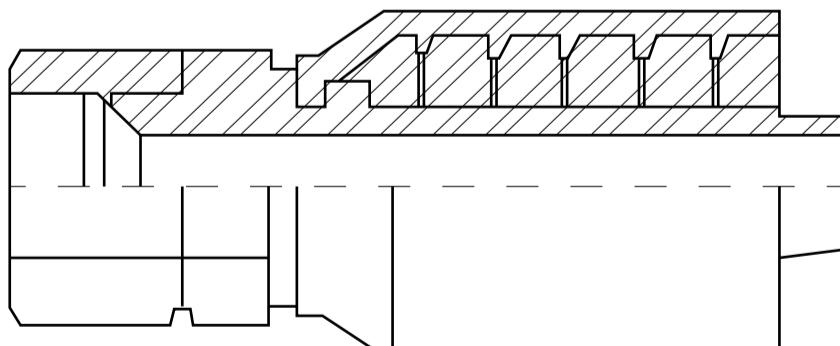

Our "K" series range is tested and certified to work with the one and two wire SILFLO hose range.

J SERIES

Our "J" series is tested and certified to integrate with our four and six wire SILFLO and YOKOHAMA hose range.
